

Pet Focus

avian formula **ONE-STEP**

GERMICIDAL DETERGENT AND DEODORANT

Disinfectant • Pseudomonacidal • Staphylocidal • Salmonellacidal • Bacterial
Mildewstatic • Virucidal

The Most Complete Avian Disinfectant!

Effective against over

50 Pathogens including viruses,
fungi and bacterial microbes.

Effectiveness

This quaternary disinfectant is certified to be effective against Avian Polyomavirus that is resistant to severe environmental conditions. Effective against pseudomonas, chlamydia, Avian Infectious Bronchitis, Newcastle's Disease and much more. Kills both Gram negative and Gram positive bacteria. Also, safe around reptiles, dogs and cats. Use in veterinary clinics, pet shops, zoos, breeder facilities, and homes.

Safe

Formulated for the sensitive avian environment. Clean cages, walls, toys, perches, dishes, counters and syringes. Certified by EPA as a rinse free formula. Non-fuming. Neutral pH concentrate formula.

Easy

Spray on, wipe off or air dry! Safe on cages, walls, floors, toys, perches, and counters. Spray and rinse on feeding dishes and when soaking syringes. Less time you need to clean, means more time you can spend with your bird.

Economical

Concentrate formula is cheaper than bleach. Less than 50 cents a gallon! One concentrate gallon makes 128 gallons of solution! Use 1 ounce per gallon of water.

Assurance

No other disinfectant offers you the assurance Pet Focus does. Effective against more diseases and conditions, is more economical, and offers the newest of surfactants to break down the green and whites! Pet Focus makes your life easier. We guarantee it. If you aren't completely delighted with Pet Focus, return the unused portion for a complete money back guarantee.
